Breeders Crown Host Tracks

The following 31 tracks have participated in the Breeders Crown program since the inaugural 1984 event. The tracks are in order of the most Crown events they hosted, followed by the number of events held at that track and the year they hosted one or more events. The only years a racetrack in Canada did not host an event until 2010 was 1998, when the open events were raced at the Meadowlands and the eight freshmen and sophomore events were raced at Colonial Downs. Since 2010, all 12 events have been raced at a single track. Woodbine Mohawk Park will be the host track in 2019.
